Integrated 48V power supply rectifier module

	With rich experience and research institutions, advanced equipment and professional technical teams, GUANGZHOU NASN POWER Co., Ltd can design, produce, develop and provide high quality ...
	Product Feature 1) The rectifier module adopts active power factor compensation technology, and the power factor value reaches 0.99. 2) The normal working range of AC input voltage is wide to ...
	These versatile Rectifier Modules function as either power supplies or battery chargers for 12, 24 or 48 volt systems; positive, negative or floating ground. They may be employed singly or in combination, ...
	Smart HelSys system is a compact and intelligent power system, it can house up to 3 rectifiers of 1kW and 1 Hel-SC501 controller. Integrated DC system capability with controller and distribution module ...
	A 48V rectifier module converts AC to stable DC power, commonly used in telecom, solar, and industrial systems. This guide explains its function, selection criteria, troubleshooting tips, and real-world ...

	Cordex 650W modular shelf systems are available to fit various 48VDC application needs. 19in rear access solutions are available in a five-module (3.2kW) bulk output version as well as a four-module ...
	The 48V rectifier power supply module is a high-efficiency conversion unit designed to deliver stable and reliable DC power for telecom and industrial applications.
	Brand New $20.00 or Best Offer Used & Tested R48-3200E Communication Power Rectifier Module 3200W 50A 48V Pre-Owned $181.20 or Best Offer
	The ETR+3048 is a high efficiency rectifier module, designed and optimized for the demanding power needs in centralized or distributed architecture systems across various applications and industries.
	The EPS2 series is a 19” rack mounted system and is available with up to two of the Eaton 48V Enterprise power rectifier modules. High power density, ease of use and onboard secure web server ...
