

1330 Optical Power Meter

1330 Optical Power Meter

SMARTFiber is a four wavelength (850nm, 1300nm, 1310nm, 1550nm) Fiber Optic Power Meter used for measuring the optical power from fiber optic cabling systems. It includes interchangeable connectors ...

Measures 6 preset calibrated wavelengths with high precision to determine absolute or relative power Special function of the unit allows the device to be manually calibrated as needed Comes with FC ...

Buy RBOPM-500: multi-wavelength optical power meter ...

AFL offers a full range of optical power meters to support FTTx deployments, fiber network testing, certification reporting capabilities and basic power measurements.

The Tempo Communications optical power meters and sources can be ordered in various kits for specific applications. Various accessories such as optical adapters, power supply and carry cases ...

Buy RBOPM-500: multi-wavelength optical power meter (850/1300/1310/1490/1550/1625nm) with memory storage, USB data transfer, and auto-wavelength recognition for accurate fiber testing.

The L-com FOTM-OPM-AH is a handheld, multi-wavelength power meter. The FOTM-OPM-AH features a single channel design, with the ability to handle higher-powered inputs over seven (7) commonly ...

Benchtop optical power meters provide accurate measurements of optical power and energy by reading the output of calibrated optical sensors. Our benchtop optical power and energy meters are plug and ...

Dynamic range: +10 to -40dBm Resolution: 0.01dB Optical interface: FC/PCF (FC, LC, ST available) Operating Temperature: -10 to +60°C Power supply: Rechargeable Battery/AC power ...

It significantly increases efficiency and reduces technician errors-and saves testing time-by eliminating the need to test each wavelength individually. The OPM4 stores optical references for each ...

Versatile Measurement: The PON Optical Power Meter is a handheld fiber optic power meter that provides accurate readings for optical power levels at 1330nm, 1490nm, and 1550nm wavelengths.
