

18 Manufacturers of Box-Type Optical Splitters

Overview

This section provides an overview for fiber optic splitters as well as their applications and principles. Contract manufacturing services are also offered. Suitable for micro-electromechanical systems (MEMS). T&S Communications specializes in optical network. Use this beam splitters buying guide to compare major types, define selection criteria, and find suppliers: Professional purchasing of high-value photonics products is a substantial responsibility, where a structured decision-making process is essential. RP Photonics offers a lot of help: Get. Thorlabs offers a varied selection of single mode (SM), polarization-maintaining (PM), multimode (MM), and double-clad fiber couplers, as well as 1x8 and 1x16 SM PLC splitters; 1x4, 1x8, and 1x16 PM PLC splitters; wideband multimode circulators; RGB combiners; and WDMs. Use the filters to narrow down on products based on your requirement.

18 Manufacturers of Box-Type Optical Splitters

This beam splitters buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Beamsplitters are optical components used to split input light into two separate parts. Beamsplitters are common components in laser or illumination systems. Beamsplitters are also ideal for fluorescence ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

A Beam Splitter is an optical device that splits a beam of light into two or more beams. Beam Splitters from the leading manufacturers are listed below. Use the filters to narrow down on products based on ...

Custom manufacturer of non-absorbing dielectric beam splitters for medical imaging, laser alignment, laser attenuation, sensor, heads-up display and fiberoptic device applications.

Fibertronics, Inc. offers a variety of box and cassette type fiber optic splitter modules and products. This PLC Splitter Module is a plastic module called an ABS box with ruggedized fiber jackets of 2mm and ...

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

An optical splitter functions by dividing a single optical signal into multiple output signals. Utilizing a passive device design, it allows for the distribution of light from a single fiber to several fibers without ...

This section provides an overview for fiber optic splitters as well as their applications and principles. Also, please take a look at the list of 18 fiber optic splitter manufacturers and their company rankings.

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.
