## 1U Fiber Optic Fusion Splicer

| | |
|---|---|
|  | The FSP200 touchscreen optical fusion splicer uses core alignment technology, which allows the technician to reliably fuse fiber optic cables with low splice losses in as little time as seven seconds. |
|  | Shop fiber fusion splicers designed for FTTH and telecom applications. Get reliable equipment with fast splicing times and comprehensive accessories included. |
|  | Whether you need a compact single-fiber splicer or a high-capacity ribbon fusion splicer, these instruments deliver precision and durability for telecom, broadband, and data center projects. |
|  | Fiber Optic Center has fiber optic splicing equipment, including splicers, cleavers, protection sleeves, mechanical splicing tools and more. We distribute fiber optic splicing equipment from Corning, AFL, ... |
|  | An expert resource for selecting the most reliable, accurate, and cost-effective fusion splicers in 2025. |

| | |
|---|---|
|  | Fusion splicing is the most widely used method of splicing as it provides for the lowest loss and least reflectance, as well as providing the strongest and most reliable joint between two fibers. |
|  | We offer fiber optic materials from Test Equipment, Bulk Cable and Fusion Splicers to Tools, Patch Cables and Consumables. |
|  | Prepared fiber ends are placed in the splicer and automatically aligned and then fused together. This method ensures greater reliability with less light being scattered or reflected back by the splice. |
|  | These fusion splicer kits are compatible with a wide range of fiber optic cables, including single-mode, multi-mode, and ribbon fibers, offering flexibility for various projects. |
|  | Leviton offers a full range of fusion fiber optic splicing solutions, including fiber splice modules in our popular HDX and SDX patching footprints. Fusion fiber splicing provides a permanent fusion ... |
