1x2 core single-mode fiber

	The 1'' long Singlemode LC Fiber Optic 1x2 Splitter Cable from Camplex is an fused passive splitter that offers a handy solution to split optical signal for routing to multiple devices, inputs, or patch panels ...
	Discover high-quality single mode fiber optic cables for data centers, telecom, and enterprise networks. Find LC, SC, and ST connectors in various lengths.
	The FIBERONE 1×2 Single-Mode Optical Splitter is a premium solution designed for the precise distribution of optical signals within modern telecommunications infrastructures. Utilizing Fused ...
	Proterial Cable America; high quality manufacturer of single mode fiber optic cable – providing cabling solutions for efficient, long-distance data transmission.
	OS2 LC SC Indoor/Outdoor Fiber Patch Cables | Duplex Single-Mode Fiber Jumper with Corning 9/125um core/cladding. A rugged, tightly buffered, black, indoor/outdoor, water/UV resistant, fiber ...

The OBK indoor fiber optic cable is designed with high-performance single mode fiber technology. This cable is specifically developed for indoor applications and provides optimal performance in networks ...

What Is Single-Mode Fiber Optic Cable? Single-mode fiber optic cable (SMF) is a type of optical fiber designed to carry a single ray of light mode directly down the fiber core.

Get OS2 single mode duplex fiber patch cables for 1G/10G/40G/100G/400G Ethernet fiber connections to transport data up to 10km at 1310nm and 40km at 1550nm.

Draka Single-Mode Fiber (SMF) provides optimum performance in both the 1310 nm and 1550 nm wavelength operation ranges (including the 1565 – 1625 nm L-band), with a low dispersion in the ...

Thorlabs'' 1x2 SM fused fiber optic couplers, also known as taps, allow a single fiber input to be split into 2 outputs. Couplers are available with several center wavelengths; options are shown below.
