

20km Gigabit Optical Module

Overview

Gigabit Fiber SFP Optical Transceiver Module, 1000Base-LX (LC) Single-Mode Port, 20 km (12.4 mi.) - White Box.

20km Gigabit Optical Module

Supporting up to 20km transmission over single-mode fiber at 1310nm wavelength, this module provides 8 dB link budget and multi-rate operation from 8.5 to 25.78 Gbps. IEEE 802.3cc compliant with ...

Description The SFP transceivers are high performance, cost effective modules supporting dual data-rate of 1.25Gbps/1.0625Gbps and 20km transmission distance with SMF. The transceiver consists of ...

SFP-7020-31 SFP module has a 1.25Gbps (Gigabit) transmission rate. It is ...

[Gigabit Capacity] Gigabit single mode single fiber, 1.25g single channel, ensuring high-speed data performance. [Wide Application] Ideal for cloud computing, data centers, servers, and ...

What Is an SFP 20km Transceiver? An SFP 20km transceiver is a small form-factor pluggable optical module designed to transmit Gigabit Ethernet signals over distances of up to 20 kilometers using ...

SFP-7020-31 SFP module has a 1.25Gbps (Gigabit) transmission rate. It is replacing the previous SFP-7010-31 model, which is now no longer available, being able to connect with old and new LX SFPs ...

This 1.25G SC SFP Module is a high-performance 1.25G SFP fiber module designed for 20km bidirectional data transmission over single-mode fiber (SMF). This SFP optical module supports ...

Gigabit Fiber SFP Optical Transceiver Module, 1000Base-LX (LC) Single-Mode Port, 20 km (12.4 mi.) - White Box

Powered by a high-efficiency 1310 nm wavelength Fabry-Pérot laser diode, the transceiver supports data rates of up to 1.25 Gbps over a reach of up to 20 km on duplex single-mode fiber optic cables.

Developed to operate in extreme conditions, the device functions in temperatures ranging from -40 °C to +85 °C, easily adapting to harsh environments. Plug and Play. No configuration is required. Suitable ...

Supporting up to 20km transmission over single-mode fiber at ...

TRENDnet's SFP+ Single Mode LC Modules are compatible with standard SFP+ slots found on network switches and fiber converters. Each single mode 10G SFP+ transceiver is equipped with a duplex LC ...
