24-core ADSS optical cable intermediate joint box

	The ADSS/OPGW metal junction box is also called a splicing box that is designed to house the fiber core splices to the outdoor intermediate optical cable leading to the patch panel in the control room.
	The metal optical cable splice closure is made of aluminum alloy with perfect seal. ...
	Feiboer is a leading fiber optic cable manufacturer in China with 15+ years of experience, providing one-stop research-production-sales-logistics services to more than 70+ countries around the world.
	The metal optical cable splice closure is made of aluminum alloy with perfect seal. It features in high mechanical strength, good airtight and anti-corrosive. Having been sealed with sealing ring and ...
	Alumium Alloy Metal joint box is designed for splicing ADSS,OPGW cables and ...

Alumium Alloy Metal joint box is designed for splicing ADSS,OPGW cables and the normal cables, including two to four sleeves for input and output.Loose storage space makes storage more ...

Fibre optic metal joint box/joint closure/splice closure is used for the continuation of the optical cable in the middle of the tower, which has the advantages of high mechanical strength, good sealing ...

The ADSS/OPGW Metal Junction Box, also known as a splicing box or Metal Joint Junction Box, is designed to house fiber core splices for outdoor intermediate optical cables. It connects trunk cables ...

Joint Closure/Splice Closure/Joint Box is mainly used for protecting the fiber optic junction between two cables and reserve a section of fiber optic for maintenance in the box.Cable Splice Closure is sold as ...

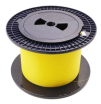

ADSS Joint Box OPGW metal junction boxes, also known as junction boxes, are designed to accommodate fiber optic splices to outdoor intermediate cables leading to control room patch panels.

Metal joint box bears the excellence of high mechanical strength, good airproof performance, outstanding corrosion resistance and long service life. It can be used more than 25 years.
