

Indzawo Optic Connect

40g Multimode Pigtail

40g Multimode Pigtail

With its ultra-compact LC connector (50% smaller than SC/ST), this multimode solution maximizes rack space utilization while delivering 40G/100G performance—critical for hyperscale data centers and ...

Have any questions? Talk with us directly using LiveChat.

OM5 FIBER OPTIC PIGTAIL is supporting 40G and 100G high speed network transmission, at least 4 wavelength and compatible with other MM fibers

The QSFP+ module is designed for use in 40GBASE Ethernet throughput up to 150m over OM3 multimode fiber (MMF) and 2km over single mode fiber (SMF) using a wavelength of 1310nm via ...

The QSFP-40G-SR-BD BiDirectional (BiDi) transceiver is a pluggable optical transceiver with a duplex LC connector interface for short-reach data communication and interconnect applications using ...

Featuring twelve laser-optimized OM4 fibers in a single, color-coded jacket (Aqua or Magenta), they offer extended reach and higher bandwidth for 40G/100G/400G networks compared to OM3.

Bynet LC 12-Fiber OM4 Pigtail delivers low insertion/high return loss and stable 40G/100G performance for data centers and telecom. Features precision LC connectors and tight buffer for reliable ...

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

interconnect solution supporting 40G Ethernet, fiber channel and PCIe. It is compliant with the QSFP MSA and 40GbE PSM4. QSFP PSM MPO AOC is an assembly of 4 full-duplex lanes, where each ...

A Simplex OM4 multimode fiber optic pigtail is a single-core fiber connector designed for high-speed optical communication. Based on the OM4 standard, it supports higher data transmission rates and ...
