

## After-sales service for optical multimeter dynamic range 35dB

### Overview

A good rule of thumb is to choose an OTDR that has a dynamic range that is 5 to 8 dB higher than the maximum loss that will be encountered. OGP Services is the North American service division of Quality Vision International. OGP Services provides technical support, field service, calibration, and upgrade services for measuring systems manufactured by QVI and its brand families - OGP (Optical Gaging Products) and VIEW (View). An optical multimeter is a cost-effective solution that enables fast, high quality fiber installation with exceptional first-time success rates.
