

Aggregation Switch 10G RoHS

Aggregation Switch 10G RoHS

An 8-port, Layer 2 switch made for 10G SFP+ connections.

The MES6000 series is a high performance aggregation 10G core/aggregation switch engineered for modern enterprise and education networks that require reliable, flexible, and scalable ...

XS3800-28 is suitable for network aggregation such as SMB or campus networks that require low latency and high-density 10G backbone architectures with basic routing capability.

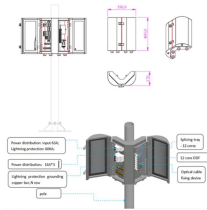

The UniFi Switch with SFP+ US-16-XG is a fully managed, 16-port, 10G fiber switch that enhances network capacity by providing high-bandwidth VM Servers NAS aggregation connectivity to multiple ...

Equipped with all-fiber ports, Omada Aggregation Switches deliver up to 10 Gbps. With advanced features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized ...

WISI's innovative Novalink Outdoor Aggregation Switch is meticulously crafted to cater to the needs of network providers leveraging 1G/10G/25G and 100G interfaces for seamless interconnection and ...

H3C S5570S-EI series switches are mainly positioned at the access layer and aggregation layer of enterprises and campuses, meeting high-density Gigabit access, fixed 10 Gigabit uplink ports, ...

An 8-port, Layer 2 switch made for 10G SFP+ connections.

Featuring two 10G uplink ports, it is ideal for situations that demand high availability, robust security, advanced multicast management, and exceptional Quality of Service (QoS) at the network edge.

Capable of High Speed & high security for systems. It also provides faster metal hardware processing performance with max 32 10G fiber access & 4MB Port Buffer.
