

Algeria Telecom Fiber Optic with Router

Overview

The package includes the “Idoom Fibre” internet service, offering a rapid 100 Mbps connection, along with a fiber optic modem. Additionally, new subscribers to the service will enjoy an extra month at no additional cost. Algerian authorities aim to cover all regions of the country with fiber optic infrastructure. In line with this objective, Algeria Telecom plans to rely on local microenterprises financially supported by the National Agency for Microcredit Management (ANGEM). These microenterprises will be tasked. Algeria Telecom, the leading telecommunication company in North Africa, awarded FiberHome, a well-known China ICT solution provider in world, a series of FTTx and ODN product procurement contracts with amount exceeding US\$200 million in march 2024. This new milestone builds on the company's record-breaking 1. 2 Gbps service launched in November 2024, strengthening.
