Armored pigtail fiber 850nm

	Armored - Get your Fibermart fiber optic pigtails for your optical network. Choose connector types, fiber length and jacket options with perfect customized fiber pigtail solution.
	Made with the same Bend insensitive glass as our Superior Flex A2 series, these pigtails take protection a notch further with an inner steel lining and a Kevlar® jacket inside the UV resistant outer layer.
	These pigtails feature premium-grade jackets and are equipped with LC, SC, ST, and FC connectors, typically with a 0.9mm outer diameter cable. Additionally, we provide options for simplex and duplex ...
	Precision Group offers a range of high-performance fiber pigtails, designed to meet the demands of both indoor and outdoor installations. These pigtails offer robust performance with features like UV-rated ...
	This product has multiple variants. The options may be chosen on the product page.

	Multimode Pigtail: Typically orange, with a wavelength of 850nm, supporting a transmission distance of 500m, mainly used for short-distance connections. The armored pigtail features a stainless steel tube ...
	Our outdoor armored pre-terminated fiber optic assemblies are perfect for campus backbones, headend termination to a fiber backbone, and intra-building backbones.
	The LongXing brand of fiber cable assemblies are designed and manufactured in LongXing''s ISO9001 registered facility. The product range covers both single mode and multimode patch cords and pigtails.
	Armored Pigtail: enclosed with stainless steel tube or other strong steel inside the outer jacket, armored fiber optic pigtails provide extra protection for the fiber inside and added reliability for the network, ...
