

Automatic Production of Galvanized Cable Trays

Length:52.0mm
Small-end inner diameter:2.0mm
Large-end inner diameter:4.8mm
Outer diameter:6.5mm

Automatic Production of Galvanized Cable Trays

Galvanized cable tray making machine belong to fully automatic making multi sizes in one pre galvanized cable tray rolling forming cable tray making machine.

HOPEX galvanized cable tray making machine produces perforated cable trays with widths 50-300 mm and side height 50 mm, speed 5-12 m/min, ensuring precise, efficient, and durable cable solutions.

Our advanced cable tray production line is engineered to provide automated forming, punching, and cutting processes for various types of cable trays, including perforated, ladder, and solid-bottom trays.

Zhongtuo provides high-performance cable tray roll forming machines for galvanized steel tray production. Fully automatic line with hydraulic punching, servo feeding, and PLC control. Exported to ...

We can design and manufacture special models according to user requirements, provide users with technical guidance, production installation, commissioning, and after-sales one-stop service.

We customize according to customer requirements and meet your semi-automatic or fully automated processing requirements. Please follow us to learn about the structural composition and ...

HCM-600 Cable Tray Automatic Production Line is a cable tray roll forming line that adopts metal sheet coils as raw material. It forms the sheet into specific shapes and specifications through decoiling, ...

Zhongtuo provides high-performance cable tray roll forming machines for galvanized steel tray production. Fully automatic line with hydraulic punching, servo feeding, ...

Cable Tray Roll Forming Machine can produce cable trays with different sizes, thickness, and from different materials, SS, CR, GI, Check it out!

full automatic cable tray manufacturing machine with high precision, low noise and easy maintenance. widely used in power, construction, petrochemical and infrastructure cable management projects.

Our galvanized cable tray making machine is suitable for producing solid cable trays, perforated cable trays, and customized tray profiles. It is widely used in electrical installations, data centers, solar ...
