Azerbaijan Fiber Optic Cable Laying Manufacturer

Overview

The construction of the Trans-Caspian fiber-optic cable is expected to be completed in 2025. The project is being implemented by AzerTelecom and Kazakhtelecom, with both companies investing more than $50 million on an equal footing. Production of a fiber-optic cable, which will be laid along the bottom of the Caspian Sea, has begun, Azerbaijan's Deputy Minister of Digital Development and Transport Samaddin Asadov said at a press conference on the World Telecommunication Development Conference (WTDC-25) in Baku, Trend reports. The project envisages the implementation of big infrastructure projects, laying of terrestrial and subsea. AMSTERDAM-- (BUSINESS WIRE)--NEQSOL Holding, a global group of companies with over 25 million customers operating across 11 countries, announced today that it has successfully finalized tender processes and commenced a first phase of construction for the Trans-Caspian Fiber Optic Cable Line, a key. AzerTelecom offers a wide range of advanced telecommunications services including high-speed internet, data transmission, voice transport, and specialized solutions like DDOS protection and VPN services.
