## Beliznac Spectrometer

| | |
|---|---|
|  | Belec has re-designed his most powerful laboratory spectrometer, the Belec Vario Lab, improving it both in terms of precision and flexibility, to satisfy all today''s needs in metal analysis industry for: |
|  | StellarNet designs UV-VIS-NIR spectrometers, Raman spectroscopy systems, fiber-optic spectrometers, chemometric analyzers, and spectral analysis software for laboratory, industrial, ... |
|  | Specac manufactures accessories for spectrometers, FTIR and XRF sample preparation equipment and a range of polarizers (as well as bespoke optics solutions). Get in touch to buy FTIR equipment and ... |
|  | Belec optical emission spectrometers help you to check the quality of metals, identify irregularities and analyze alloys. You receive reliable information about the chemical composition of your materials. |
|  | The Belec IN-SPECT is the new compact stationary spectrometer for metal analysis. The tabletop instrument combines most of the features of a complex laboratory instrument in a compacted way. ... |

Thanks to the almost unlimited number of measuring programs that can be installed on it, the Belec IN-SPECT is the unique and compact optic dual-spectrometer that can be used for smelting control in ...

For over 50 years, Belec has been developing high-precision portable and stationary spark optical emission spectrometers that are used worldwide for metal analysis. Belec spectrometers ensure safe ...

Lunatic is a UV/Vis spectrophotometer designed for accurate, microvolume quantification of proteins and nucleic acids. It delivers the capabilities of a general-purpose UV/Vis spectrophotometer, optimized ...

The Belec Compact Port HLC is the World''s only Portable Hybrid Spectrometer for metal analysis of carbon combined with Best and Unique Flexibility and latest 6GSO-System.

The attractive design of the Belec Vario Lab ensures an ergonomic set-up of the spectrometer at a comfortable working height. The drawer has enough space to accommodate user tools, drift ...
