Bulk purchase of 800G QSFP-DD optical modules

Smartoptics QSFP-DD transceivers provide cost-efficient 400G and 800G optical networking. QSFP-DD (Quad Small Form-Factor Pluggable Double Density) transceivers double the number of high-speed ...

Our sales manager will contact you soon. High-density 800G OSFP and QSFP-DD transceivers support InfiniBand and RoCE, enabling 100m to 2km transmission via MMF and SMF.

They expand Cisco routed optical networking applications to include 800G links and are compatible with Cisco and third-party 800G-capable routers, switches, and transponders with QSFP ...

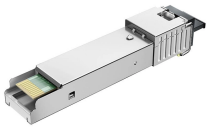

This 800G QSFP-DD optical module is a high-performance solution designed for the demands of modern data centers. It offers incredible flexibility by supporting multiple data rates, making it ...

The typical applications for 800G/400G NVIDIA multi-mode optical modules are illustrated below: The optical modules involved are: the 800G OSFP SR8 (Dual MPO) and the breakout 400G ...

	200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall
	The products of this series are comply with IEE802.3ck and QSFP-DD 800 MSA standards, and support CMIS4.0. Products are mainly used in 800G Ethernet, data centers and Cloud networks.
	Have any questions? Talk with us directly using LiveChat.
	Click to get your 800G transceiver modules and cables from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.
	If you are looking for a 800G OSFP/QSFP-DD transceiver supplier with reliable performance, excellent technical service and competitive price, SULITON will be your ideal choice.
