

CE certification for galvanized cable trays

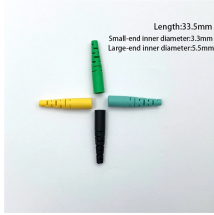

Overview

CE-certified cable trays have become a baseline requirement for accessing the European market and for projects worldwide demanding proven compliance. CE certification plays a crucial role in cable tray manufacturing. Manufacturers must comply with stringent guidelines to receive this certification. It boosts consumer confidence and enhances brand. The company and products have passed the quality system certification, environmental management system certification and occupational health and safety management system certification, as well as the national 3C certification and national patent certification. JLH Electric holds ISO9001 Quality Management Certification, ISO24001 Environmental System Management Certification, ISO45001 Health.
