Cable tray welded wire mesh

	Wire Mesh Cable Tray is an open cable tray made of welded steel wire. The mesh structure facilitates cable ventilation and heat dissipation, and is easy to install and maintain.
	The VIAFIL Electro-Welded Steel and Stainless Steel Wire-Mesh Cable Tray combines strength and flexibility, making it an ideal choice for secure cable routing in various installation contexts.
	Wire mesh cable tray supplies a point-to-point pathway for cables. Made of high quality steel wire and welded into 2" × 4" rectangular grid pattern. the grid is formed into U shaped channels, which ...
	Choose from our selection of wire mesh trays, including over 475 products in a wide range of styles and sizes. Same and Next Day Delivery.
	These cable trays are lined with wire mesh to route and support small diameter cable, such as data communication cable. The mesh allows air to flow through the tray to keep cable ventilated and cool, ...
