

Can Huijue s optical modules be used with H3C

Overview

Description: Huawei switches must use Huawei-certified optical modules. Switch has many brands, such as CISCO, HUAWEI, H3C, Juniper, ZTE, HP, DELL and so on, so there are varieties of brands of modules. However, the price of these brand modules is very expensive, and many users will be prohibitive. In order to minimize the cost of manufacturers and equipment vendors. H3C devices support optical module models of different specifications. Huawei is not responsible for any problem caused by the use of non-Huawei-certified optical modules and will not fix. Compatible brands: For Huawei H3C ZTE RUIJIE Digital China JUNIPER CISCO D-LINK and most other brands of switches

Product Description: SFP+, 10GBase-SR 10Gb optical module, 850nm, multi-mode 300m Package Type: SFP+ Transmission rate: 10G Transmission distance: multimode 300 meters Transmit. The H3C Campus Fixed-Port Switches Web-Based Configuration Guide describes the web functions of the H3C Campus Fixed-Port Switches, such as web overview, task fundamentals, and configuration examples. Field technical support and servicing engineers.

Can Huijue s optical modules be used with H3C

Check whether the optical module is Huawei-certified. If it is not certified by Huawei, replace it with a Huawei certified one. Remove and reinstall the optical module. If this resolves the ...

Optical modules transmit signals over optical fibers. Optical transmission features low loss and is fit for long distance transmission. H3C devices support optical module models of different specifications. ...

The optical modules at both ends of the optical cable provide optical-electric conversion and optical transmission functions. Common classifications of H3C AOC active optical cables ...

In fiber applications, it converts electrical signals from the equipment into optical signals for transmission. In some cases, SFP modules can also provide copper connectivity. Why SFP ...

With digital transformation accelerating, businesses are demanding greater stability and cost control in their network transmissions. In the past, sourcing gigabit optical modules often meant dealing with ...

Huawei Compatible 10G SFP-10G-SR 850nm 300m Transceiver Optical Module Free shipping

So can original HUAWEI optical module be used on H3C switch? The answer is No. Some companies, especially some famous companies, such as CISCO, HUAWEI and H3C etc., they all add password ...

Shop high-quality Huawei compatible transceivers and cables from HPC Optics for all data center and networking applications. Lifetime Warranty!

Examples in this document might use devices that differ from your device in hardware model, configuration, or software version. It is normal that the port numbers, sample output, screenshots, ...

For details about the optical modules supported by optical ports on switches, see "Appearance and Structure" of a specific switch model in the Hardware Description. The following figure shows the ...
