Can a 300Mbps router be used with a 1200Mbps fiber optic connection

Overview

Yes, you can often use your existing router with fiber optic internet, but there are crucial considerations. Understanding compatibility, potential limitations, and when an upgrade is necessary will ensure you get the most out of your high-speed connection. Routers designed for DSL (which uses phone line inputs) or cable (which uses coaxial inputs) won't work. There are several types of connectors, including LC, SC, and ST. For more information, see How do I check my Internet speed?

. Network Management: It manages and prioritizes network traffic.
