

## Certificates are required for fiber optic cable splicing on railways

### Overview

The Fiber Broadband Association offers four types of professional certifications: FBA OpTIC Path, Fiber Service Provider Certification, Certified Fiber to the Home Professional and FTTx-OSP Design. Skills-based certifications require a CFOT or CPCT as a prerequisite for both classes at a FOA-Approved. This 2-day fiber optics CFOS/S - Certified Fiber Optic Specialist, Splicing - is the FOA certification for technicians splicing primarily outside plant (OSP) fiber optic cable plants for concatenation and termination. To access this manual online visit [www.foa.org](http://www.foa.org). Our Certified Fiber Optic Technician course covers technology fundamentals.

## Certificates are required for fiber optic cable splicing on railways
