Colombian Civil Cable Tray Support Arm

When the mould is removed, the result is a strong, flexible support rail system encased in the concrete wall, ceiling or floor. The rail system can be used for direct support by attaching cantilever arms, or ...

The document provides details on the design of a cable tray mechanical support system, including specifications for cable tray sleepers, impeded steel plates, and concrete foundations.

These special heavy duty tray hold down cable tray clamps and expansion guides are ideal for fastening tray to C-Channels and beams, such as those found on bridges.

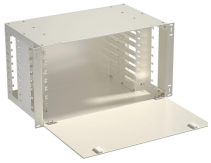

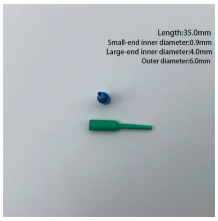

Cable Support Systems are well designed to provide necessary support for cable trays, cable ladders and trunkings. Cable supports are manufactured according to common standards from high quality ...
