

Communication Dual-Head FC Pigtail

Communication Dual-Head FC Pigtail

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

In the following article, we will discuss in detail the characteristics and applications of various types of fiber pigtails to help you choose the right pigtail for your fiber optic network.

Confused about fiber optic pigtails—which connector type, which polish, fusion or mechanical splice? Our guide covers LC vs SC, APC vs UPC, splicing methods, and real-world use ...

Fiber Optic Pigtail by Unisol is a high-performance, precision-engineered component designed to ensure seamless optical fiber termination across a wide range of network environments.

Find high-quality fiber optic pigtails for reliable network termination. We offer a full range of single mode and multimode pigtails with SC, LC, ST, and FC connectors.

Our fiber optic pigtail offers a flexible solution for your data centers and telecom rooms, connecting existing equipment to spliced fiber optic lines for network expansion.

In this guide, we will break down what fiber optic pigtails are, how they differ from patch cords, what types exist, and how to select the right one for your project. By the end, you will have a ...

Corning patch cords and pigtails can be ordered in five easy steps. The steps involve the selection of connector(s), fiber count, fiber type, cable type, and length.

These pigtails feature premium-grade jackets and are equipped with LC, SC, ST, and FC connectors, typically with a 0.9mm outer diameter cable. Additionally, we provide options for simplex and duplex ...
