Core Switch H3C Model

Overview

The H3C S7503X, part of the H3C S7500X switch series, is designed for next-generation enterprise core networks. This advanced switch supports high-density, high-performance environments, and delivers unparalleled reliability and scalability. H3C UniServer R6900 G6 server, running a full load of 777 high-load virtual machines, achieved a performance score of 13,880 points, setting a new record. H3C's sub-brand Aolynk, designed specifically for SMB (small and medium-sized business) in global markets. An ultra-compact, palm-sized AI. H3C provides an extensive, innovative, and enterprise-focused range of network switches designed to meet the evolving demands of modern digital infrastructure. From next-generation cloud data centers to enterprise campus networks, branch offices, smart buildings, and SMB deployments, H3C switches. After over 20 years of networking innovation, research and development, H3C has accumulated significant industry-leading Ethernet-related intellectual property and numerous patents. With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs – from the. A global ICT bridge delivering authentic hardware and trusted service for over 20 years.
