

Customized 200G Air-Cooled Switch

Customized 200G Air-Cooled Switch

CHALLENGE SOLVERS and airflow configurations. Geist has the expertise to reconfigure custom brackets to fit any unusual situation and can even provide channel kits that would elimina power to ...

Transceiver with MPO-12/APC Pigtail. Strong anti-leakage performance and a low leakage rate. Compatible with a variety of mainstream cooling fluids. Provides connectivity solutions for 200G ...

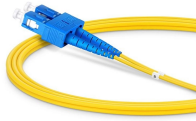

FS 100/200G bare metal switches with high-performance switch chip provides powerful hardware switching capacity and data center features (supporting stacking, MLAG, PFC, ECN, VxLAN, EVPN, ...

The SwitchAir product is suitable for cooling a wide variety of switch models and airflow configurations. Geist has the expertise to reconfigure custom brackets to fit any unusual situation and can even ...

The SwitchAir creates a barrier between switch air intakes and hot exhaust air in the back of server racks, while also guiding cool air from the cold aisle to the switch intakes.

The NVIDIA Quantum-2-based MQM9790-NS2F switch comes with 64 400Gb/s ports on 32 physical octal small form-factor pluggable (OSFP) connectors that can be split to deliver up to 128 200Gb/s ...

The N8510-24CD8D switch, part of FS's PicOS® data center switches portfolio, is designed to meet these needs, delivering high-density 200G connectivity, seamless multi-rate support, and robust ...

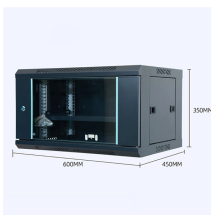

The N8510-24CD8D switch, part of FS's PicOS® data center switches portfolio, is designed to meet these needs, delivering high-density 200G connectivity, ...

The NVIDIA Quantum-2-based MQM9790-NS2F switch comes with 64 400Gb/s ...

Direct attach copper is suitable for very short links and offers a cost-effective way to establish an 800-Gigabit link within racks and across adjacent racks. The 800G OSFP finned top for air-cooled ...

FS 200G PicOS® Data Center Switch (N8550-24CD8D) is a high port density data center switch that delivers a combination of high performance and low latency for cloud-oriented and AI storage networks.

Watteredge offers custom fabricated high current switches specifically designed for high current DC switching applications that offer increased safety, reliability and longer life.

Transceiver with MPO-12/APC Pigtail. Strong anti-leakage performance and a low leakage rate. Compatible with a variety of mainstream cooling fluids. Provides ...
