

Customized anti-electrocution industrial-grade optical switches from Guatemala

Customized anti-electrocution industrial-grade optical switches from

The fastest, smallest, most reliable optical switches in the industry. Used in medical devices, undersea cables, quantum computers, underground and outer space.

Coreray offers high-quality optical switch products, including MEMS, mechanical, and magnetic optical switch solutions.

Manufacturer of standard and custom switches for optoelectronic applications. Slotted and reflective switches are available. Prototypes and small to large production volumes are offered. ...

Esco Optics has been producing top quality catalog optics and custom precision optical components for 70 years. ITAR registered, US based manufacturing in Oak Ridge, NJ.

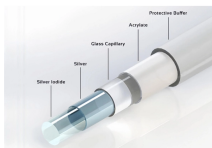

E-Switch provides a vast line of switch products with multiple features suitable for agricultural related devices and equipment. Whether the application requires moisture-resistance, illumination or ...

Find the perfect connection for every industrial application - from the automotive and chemical industries to the manufacturing and process industries. These solutions are designed for use at all network ...

Industrial grade optical fiber transceiver is specially designed for stable and reliable operation in harsh environments. The sturdy all-metal casing has anti-corrosion and anti-oxidation properties.

Industrial-grade fiber optic bypass switches can be installed in 100M/1G/10G fiber optic networks. It protects the network from failures and subsequent maintenance by ensuring the integrity of the ...

- Your complete store for optical transceivers and hardened industrial Ethernet networking devices. Join Our Mailing List for special offers!

We make best-in-class optic/electro-optic products based on over 25 years of intensive R& D and rigorous engineering. We strive to provide premium product solutions with unmatched value.

With dedicated and outstanding electrical and mechanical designs of the component and compact aluminum alloy housing, the industrial switch is optimized for the heat transfer without fan required ...
