Distribution box leaking fluid

Overview

This article explains the causes & suggests cures for effluent leaks, odors, or smells at the septic distribution box. If the D-box is leaking, smells, or is tipped, clogged, or otherwise not working, this article describes how to diagnose & fix the trouble. InspectAPedia tolerates no conflicts of. A septic distribution box (D-box) is a concrete or plastic junction that evenly distributes wastewater from your septic tank to all drainfield lateral lines. When it fails, symptoms include uneven wet spots in the yard, slow indoor drains, and sewage odors. When it fails — and it will eventually — the consequences can reach $30,000. Here's what every septic owner needs to know. If you've ever had a septic inspection and heard a technician mention the D-box, they.
