Dominic Aluminum Alloy Fireproof Cable Tray

	If your project requires lightweight, corrosion-resistant, and thermally optimized cable management, our engineers can guide you in selecting the perfect aluminum alloy cable tray system.
	As a less-expensive alternative to conduit, a stronger alternative than wire basket, and superior to generic tray, Snap Track saves on labor and reduces total installed costs.
	Aluminum cable trays do not rust and are highly durable, even in saltwater environments. Additionally, aluminium is more resistant to fire and does not produce toxic gases in the event of a fire.
	When aluminum cable trays are used with stainless steel hardware, the system can perform indefinitely, with little or no degradation over time, making it ideal for many chemical and marine environments.
	Our aluminum, I-beam ladder cable trays feature 3-inch tangents and are using connectable with our fittings and accessories. Aluminum ladder cable trays benefit from being lightweight and resistant to ...
