Dominic distribution boxes can be customized to your needs

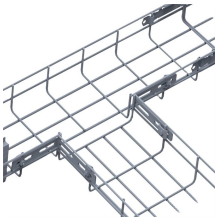

Overview

That's why we offer customized electrical enclosures designed to fit your specific requirements. At Segue, we have been designing and fabricating custom Control Panels/Boxes and Power Distribution Units (PDUs) for many industries and applications for more than 30 years. Distribution box refers to the equipment used in the power distribution. This rooftop unit from GE delivers steady cooling without the extra power draw or complicated setup, just reliable performance when the temps climb. No Ducts, No Problem: Made for RVs without ducted air - ideal for replacing your existing setup or running a second cooling setup. For B2B buyers, project engineers, and OEM customers, choosing the right custom electrical enclosure affects installation speed, internal layout efficiency, long-term serviceability, and even the professional. Submit your requirements or design draft to us, and we'll provide a free design and deliver a high-quality prototype in just 15 days – ensuring your project stays on schedule with speed and precision. Our AC units will keep your RV cool and comfortable all summer long. Having cool air in your RV is almost a necessity when driving in warm.
