Dutch Explosion-proof Distribution Box Technology

Overview

This explosion-proof distribution box is built for reliable protection in demanding industrial settings. It supports stable distribution and helps reduce risks linked to exposed electrical components. Leading to revitalize national explosion-proof industry, Warom Technology is marching forward to the great goal of creating a world brand. No matter your requirements, R. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. Options range from Ex d (flameproof enclosure) to Ex e (increased safety) and Ex i (intrinsically safe) right through to Ex p (pressurized housing), as well as combinations of different explosion-protection types – always bearing in mind the most efficient solution for your application. Explosion-proof lights used in hazardous areas where combustible gases and dust exist, which can prevent arcs, sparks, and high temperatures that may occur.
