

Dutch quote for butterfly-shaped single-mode optical cable

Overview

GJXH fiber optic cable is an indoor optical cable specially developed for FTTH (Fiber to the Home). The optical fiber core is located in the center of the cable body, two reinforcing cores are placed on both sides, and the outer layer is enveloped and sheathed to form a cable. These are used to provide links to protocols such as FTTH, FDDI, 10 Gigabit Ethernet, ATM. Briticom ® offers Armoured Butterfly-Shaped. Here are some key areas where butterfly cables shine: Data Centers and Networking: Butterfly cables are ideal for high-density data centers. These cables are distinguished by their unique construction, which resembles a butterfly wing when the individual fibers are spread apart. : We are China G657A2 Single Mode Butterfly Optical Fiber Cable manufacture and supplier, You can get more details with Email, you will get cheap price or factory price.
