East Asian 450nm Laser Diode

	Mouser offers inventory, pricing, & datasheets for 450 nm Laser Diodes.
	These fiber-coupled 450nm laser diodes are offered as stock items or associated with a CW or Pulsed Laser Diode Driver. They are compatible with our high speed nanosecond pulsed drivers or high ...
	Violet and Blue Alignment Laser Diodes are ideal for alignment and sensing applications. Available with output power options ranging from 1 to 100mW, these lasers are commonly integrated into visual ...
	Industrial applications, especially copper welding for EV battery production and 3D printing of metals, are the most significant drivers of market growth, creating a high-demand environment for high-power ...
	445nm/450nm 1W/1.5W/3.5W/4W/4.5W high power laser diode,blue LD,TO18/TO5 package.

The blue light is effectively absorbed by copper, thus, our laser diode is capable of improving manufacturing quality of copper materials, and is expected to be used in the field of electronics and ...

Laser diode provided by CNI laser at 450 nm in TO 38 package provide state-of-the-art power and brightness. The small emitting aperture, combined with low beam divergence, make these devices ...

The blue light is effectively absorbed by copper, thus, our laser ...

Laser diode can be used laser pointers, indicators, scanner, DVD, medical systems.

The Lasermate LD450E80C17 is a 450nm, 80mW laser diode housed in a durable 5.6mm TO-can package, built for high-performance and demanding environments with an operating temperature of ...

The CVB 450-to56R laser diode module is a 450 nm GaN laser diode packaged in a 3 pin coaxial format. The laser diode is optically coupled to a 200/230/500um fiber pigtail. The device includes an ...
