

Exposed copper wire in the upstairs electrical box

Overview

The best way to deal with minor damage on a wire is to sheathe it. You can do this with Sugru putty or heat shrink wrap, although the easiest and fastest option is usually to wrap the exposed wire with electrical tape. Stick electrical tape over the exposed wire and wrap it. Exposed electrical wires present a serious hazard, creating immediate risks of electric shock and fire from short circuits or arcing. If you. When you have electrical problems, Professional Services provides prompt and high-quality help. Carefully assessing the situation, shutting off power, and taking the proper precautions helps prevent immediate hazards.
