The Keyence FS2-65 is a high-speed fiber optic amplifier designed for precise and rapid detection in automation applications. This amplifier enhances the performance of fiber optic sensors by delivering ...

Application: It is especially suitable for relay amplification of long-distance optical communication Design Features: Compact amplifier housing with clear visibility status indicators for easy monitoring and ...

1PC New Keyence FS265 Fiber Amplifier Sensor FS2-65 Fast Delivery Free Shipping $25.60

Photoelectric Sensor FS2-65 Electronic DevicesKeyence FS2-62 Fiber Optic Amplifier Shock Resistant 50G Vibration Proof for Harsh

From our inventory we are selling a Keyence FS2-65 High Speed Fiber Optic Cable Sensor Amplifier, 12-24VDC, NPN.

In summary, the Keyence FS2-65 Fiber Amplifier is a fast, precise, and durable sensor amplifier that combines high-speed response, fine sensitivity control, versatile functions, and rugged reliability.
