# Fiber Optic Space Coupler

| | |
|---|---|
|  | A fiber coupler is an optical fiber device that connects multiple fibers, allowing light from an input fiber to be distributed to one or more output fibers. The term can also refer to a fiber launch system for ... |
|  | The Fiber Launch Platforms are ideal for coupling a free space laser into a single mode, multimode, or polarization-maintaining fiber. The U-Benches are based on the stable FiberBench platform with a ... |
|  | Thorlabs'' KT120 (/M) fiber launch system couples free-space laser beams into fiber optic cables. This system, which can be used with single or multimode fiber, is equipped with high-precision differential ... |
|  | Discover fiber optic couplers for network connectivity. Find SC, LC, and ST adapters with low insertion loss for reliable connections. |
|  | Fiber Optic Couplers Whether you''re building a high-capacity data center or maintaining a local telecommunications hub, selecting the right fiber coupler maintains signal integrity and minimizes ... |

Get low-loss fiber optic adapters/couplers with good repeatability and durability for precisely mating two ends of a fiber optic cable. Multiple connector options available.

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

Our complete Range of Fiber Optic Couplers, Adapters & Kits gives you everything you need to manage any Fiber Optic Cable Transition

We offer a full line of fiber optic couplers and splitters supporting SM, MM, PM, large core, and double-clad fibers across 300–2000 nm, with power handling up to 100 W and operating temperatures up to ...

Explore 54 top manufacturers and suppliers of Fiber Optic Couplers in our comprehensive photonics buyers'' guide.
