

Fiber Port Aggregation Switch

Fiber Port Aggregation Switch

Enhance routing, security, and performance with RIP, OSPF, VLAN, ACL, and QoS to ensure greater network stability. Provides advanced Security ACLs for improved security, traffic control, and QoS, ...

The EX3024F is a fiber aggregation switch that has all 10 Gbps SFP+ fiber ports. It also has dual internal power supplies for additional robustness and redundancy. These switches come with a 5 ...

Faster replacement and priority support, covered for 5 years. High-performance 10G SFP modules for optimal connectivity. An 8-port, Layer 2 switch made for 10G SFP+ connections.

Stack up to 9 switches with 200 Gbps bandwidth and unified IP for simplified control, fast failover and solid redundancy. Enables Layer 3 routing between different parts of your network, improving ...

Equipped with all-fiber ports, Omada Aggregation Switches deliver up to 10 Gbps. With advanced features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized ...

Developed for long distance fiber installations. Equipped with eight SFP+ ports, two additional SFP28 ports and one RJ45 console port for configuration. With AXIS D8308 Fiber Aggregation Switch you ...

Compact and rack-mountable with intuitive LED indicators and a robust metal chassis, this switch is built for professional installations. With support for both AC and DC power, it adapts to diverse ...

Modern network infrastructure depends on fiber aggregation switches to combine several fiber optic links into one streamlined network connection. They are built to handle large amounts of ...

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...

Ideal for long-distance installations, the AXIS D8308 enables efficient and reliable aggregation of data traffic from multiple access switches, making it a critical component in large-scale surveillance and ...
