Indzawo Optic Connect

Fiber-coated hard tail

Overview

Hardtail mountain bikes are bikes that have front suspension only and no rear suspension. That makes them popular among a broader range of riders. Hardtails are the pure mountain machines. They're ideal for cross country and trail riding. But don't let the lack of a rear shock fool you into thinking hardtails are a lesser-than class of mountain bike: Their defining feature is actually what makes. Shop the best prices from top brands for new hardtail mountain bikes designed for dirt trails. Make any ride, on any route a ride to remember.
