Fiber optic cable 6dB

Fiber optic cable 6dB

This is a simplex SMF OS1 fiber optic attenuator, used in fiber optic links to reduce or attenuate optical power. This fixed value attenuator will reduce optical power by 6dB.

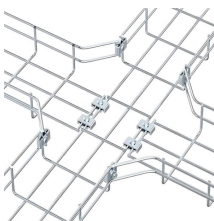

Buy fiber optic attenuators online at buy.customcable.com. Custom Cable, Inc. is a manufacturer of high-quality custom fiber optic cable assemblies and components.

SENKO attenuators feature a proprietary type of metal-ion doped fiber which reduces the light signal as it passes through. This method of attenuation allows for higher performance than fiber splices or fiber ...

In this instance, a fiber attenuator would be used to lower that optical signal. This particular Optical Attenuator features a fixed reduction of 6 decibels and is applicable to single-mode fiber links ...

These plug-style attenuators simply mount on one end of a fiber optic cable, allowing that cable to be plugged into the receiving equipment or panel. We also have female to female (bulkhead) ...
