

## Fiber optic cable unpacking at twenty ends

### Overview

This short video will show you how to terminate your multimode fiber optic cable with premium SC/APC field installable mechanical fast connectors. com! We terminate fiber optic cable two ways - with connectors that can mate two fibers to create a temporary joint and/or connect the fiber to a piece of network gear or with splices which create a permanent joint between the two fibers. Inspect the cable: Benefits : This practice ensures the performance reliability of optical fiber cable assemblies by requiring the selection of optical fiber cable components that have been tested and approved for spaceflight use and by specifying approved assembly and acceptance inspection and test procedures. Fiber Optic Center's Cable Prep Video Library displays product demonstrations and overviews for the following Cable Prep product lines: Cable processing, Cutting, Coiling, Respooling, Cable stripping, Fiber stripping and Furcation tubing.

## Fiber optic cable unpacking at twenty ends

Equipped with a removable **Mounting Plate** inside the enclosure, enabling customized drilling and secure component mounting.
