	FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.
	Pigtails are used for non-permanent connections in patch panels, transmission equipment etc. Factory assembled pigtails allow for high quality termination of a network.
	The short, unbuffered construction of multimode pigtail jumpers makes them the perfect choice for short-distance connections that require more flexibility than the average fiber optic installation.
	Whether you''re looking for reliable single-mode transmission or high-speed multimode connections, our pigtails ensure seamless integration and superior performance for your network infrastructure needs. ...
