French Home Electrical Distribution Box Switches

We create high-end electrical equipment from raw material. Made in France since 1976. Designed by Bruno Borrione and Astrid Dieterlen

Complete description of a single phase European circuit breaker box/consumer unit, showing electricity entering the residence through the meter, main switch, residual current breakers, ...

Wiring material in France lends itself to the multi-junction boxes approach, but careful selection of good quality sockets, switches and back boxes will minimise the junction boxes used.

Having selected your supplier, fill in the on-line form to start the contract process. Alternatively, if you wish to change supplier, enter your electricity con-sumption and post code details into the form. This ...

None of this applies in France, because there are no fuses in plugs and no switches in sockets. The con-sumer unit protective devices are all double-pole devices that provide complete isolation when opened.
