

# French electrical distribution box fee standards

## Overview

Getting electricity in a new home in France requires three steps: an Enedis network connection (2-6 months, typically €400-€1,685 TTC), a CONSUEL compliance certificate (~€145 TTC), and an electricity supplier contract. Once the line is in place, activating supply with a Linky meter costs €1.78 and. Well-known to professionals, NF C 14-100 and NF C 15-100 standards deal with the design and installation of electricity distribution networks. Each covers a different portion of the low-voltage distribution network, so it's important to know where you are on the network to know which standard to. In its role as the guiding and coordinating body of the French standardization system, as established by the decree of June 16, 2009, as amended by Decree No. 2021-1473 of November 10, 2021, and Decree No. The CE mark is a construction standard for equipment.
