

Germany RoHS Micro-Module Data Center IP54

Germany RoHS Micro-Module Data Center IP54

Our Blue DC solutions are the ideal data center for companies and the public sector that place the highest demands on availability, security and sustainability. Our modular data centers are fully ...

The MDC VAULT Micro is the small data center designed and engineered by Silent-Aire to address the increasing demand for storage and computation of data, closer to where it is being created.

Protecting AI data centers with nickel-zinc batteries. Supported by Fraunhofer IZM, the startup Zn2H2 has created an innovative and cost-effective way to produce nickel-zinc batteries. This type of battery ...

Delta's modular datacenter solution offers a datacenter environment that provides safe equipment operations within the racks, and supports the development and standardizing of micro datacenters ...

Our new high-performance data center with a capacity of 30 MW is being built in Schwalbach near Frankfurt. It will be powered entirely by renewable energy and will achieve a particularly low PUE ...

R& M (Reichle & De-Massari AG) is a leading Global cabling and connectivity solution provider for high end-communication networks since 1964. We serve a wide range of industries in the sectors of Local ...

We develop, design and produce highly secure room-in-room systems, micro data centers and container data centers.

Modular container-housed data centres offer the ideal scalable solution. Whether customised for SME, cloud or edge applications or preconfigured data centre containers, our modular container system ...

The STULZ Micro DC can be configured with all the key design aspects of a data centre, including critical power distribution, fire suppression, physical security & precision cooling.

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly enables swift transportation by road, rail, ...
