

Grenada fiber optic switches are in ample supply

Overview

The subsea fibre cable will be connected to Cable Landing Stations and be joined to the terrestrial Fibre network currently being rolled out to complete a fibre optic broadband network throughout St. This is expected to be completed by. The import of fiber optic cables to Grenada surged in 2024, with the USA, Panama, China, Dominica, and Jamaica leading the way. The high Herfindahl-Hirschman Index (HHI) indicates a concentrated market, while the impressive compound annual growth rate (CAGR) of 75. 9% from 2020 to 2024 underscores. In 2020, the Caribbean Regional Communications Infrastructure Program (CARCIP) increased access to high quality, low-cost digital connectivity for 53. 3 percent of the population of St. Raw materials, finished components, transportation of goods, supply storage, and skilled labor are all dramatically more expensive than pr -pandemic, and often in short or uncertain supply. In addition, many government programs supporting these. In a global first, GVIC negotiated Public Private Partnerships for three Caribbean island nations to simultaneously deploy new fiber terrestrial and submarine networks for both government and commercial use, through a combined 3-country procurement process with international telecom operator.
