H3C aggregation downstream switch

	Using the switch in conjunction with H3C IMC, you can manage and monitor online users in real time and take prompt action on illegitimate behaviors. The switch offers a large number of inbound and ...
	H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic ...
	View and Download H3C S7500 Series operation manual online. S7500 Series switch pdf manual download.
	When a physical Ethernet link fails, the traffic previously transmitted on the failed link is switched to the other two links. An aggregation group is a group of Ethernet interfaces bundled together. These ...
	In large and medium-sized enterprise or campus networks, the S6550XE-HI series serves as a high-performance aggregation switch, delivering massive switching capacity and 40G/100G ...

This datasheet details the H3C S6530X series advanced aggregation switches, highlighting their high performance, modular design, and support for SDN and various network protocols. Key features ...

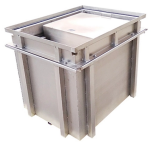

Use it to aggregate multiple access stacks/closets and push uplinks into core/spine. The uplink count helps you keep redundancy clean while reducing oversubscription pain.

Compare 10 models of S6520X series switches with verified ports, uplink options (40G/100G), and role-based deployment scenarios.

H3C S6530X series switches provide industry-leading high performance and scalable aggregation switching solution with modular dual power, fixed uplinks (40GE/100GE) and IRF for resiliency. The ...

H3C''s S6520X-HI Series switches offer industry-leading performance and scalability among 10GE access switches, with support for dual replaceable power supplies, fixed or modular backbone ...
