High Voltage Busbar Bridge Item

	Typical busbar applications include switchgear, panel boards, power invertors, powered electronics, and high-voltage battery packs. Eaton offers numerous busbar manufacturing technologies, ensuring the ...
	Robust HV busbar and enclosed busbar solutions up to 35kV, designed for substations, mining, and offshore platforms. Dust-proof, moisture-resistant, and compliant with IEC/ANSI standards.
	AMPHENOL AUXEL designs laminated busbars able to withstand high level partial discharges (used in high voltage systems)
	Busbars are indispensable components of high-voltage power systems, ensuring efficient and safe power transmission. Selecting and utilizing the right busbars contribute to enhanced system ...
	One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client specifications. Busbars are essential components in electric ...

Molex provides a versatile range of high-current high-voltage busbar solutions suitable for various applications and environments. Busbars and busbar connectors are the backbone of many ...

To connect various high voltage (HV) components to the HV system, we also deliver a wide variety of busbars. In cooperation with the customer, these can also feature our Bus Bar Insulation Tubing (BBIT).

In the automotive sector, the overmolded busbar is used to safely conduct the electrical current between high-voltage storage unit, control unit, drive and charging unit.

Vertiv™ PowerBar HPB is a 1000V totally encased, non-ventilated and low impedance busbar. HPB sandwich construction range has been engineered for applications which require moving large ...

Available in copper and aluminum, sheet, bar and rod form options. Feature braided cables that provide flexibility. Available in rounded rope braids that offer 360-degree movement. They are often used in ...
