

High-efficiency pulleys for cable tray wiring

Overview

These specialized pulleys are engineered to support and guide cables during installation in cable tray systems, preventing kinks, abrasions, and excessive tension that can compromise cable integrity and performance. The Cable Tray Pulley stands as a critical component, facilitating the smooth and damage-free installation of power, control, and communication cables across diverse applications. Axle design, the red axle will roll with your wire, protect your wire from wearing. They are available in three different maximum diameters (0. 375), and constructed for heavy-duty, medium-duty, and light-duty applications. See our 3 different cable cutter models. [ADJUSTABLE ROLLER DESIGN] This cable guide roller features an innovative adjustable clamp that allows precise control over tension and tightness ensuring smooth wire pulling without snags.

High-efficiency pulleys for cable tray wiring

Ensure smooth, efficient cable pulling with our durable Cable Tray Pulley. Perfect for electrical installations, data centers & construction, it protects cables & speeds up projects.
