The metering PDU can provide a wide range of power input and export options, from AC to DC, single-phase to three-phase, 10A to 63A. All PDUs are modular and customized to meet your unique needs.

Beyond the capabilities of a power strip, a rack PDU offers a range of intelligent features to help control the power distributed to IT devices. Rack PDUs are used in 120V, 200-240V and other environments ...

RackPower Intelligent Power Distribution Units address controlling power on Cabinets as well as Open Frame Racks and Wall-Mount enclosures. Design your power solution using a variety of ...

The EL2P PDU provides reliable, intelligent power distribution in hospitals and clinics, reducing install complexity and enhancing uptime for medical networks and digital records systems.

Increasing rack power density both in the data center and at the network edge means that reliable power distribution is crucial. Our innovative power distribution units and rack PDUs not only maintain power, ...

The iX Controller is fully hot-swappable and the center of intelligence in Raritan power distribution solutions. It offers industrial-grade reliability, user-configurable firmware, and multilayer redundancy ...

The PX Intelligent Rack PDU series provides reliable power distribution for IT equipment cabinets. It offers metering at the inlet, outlet, and PDU circuit breaker level. Support for 120 to 400V: single or ...

Featuring a 0U vertical design, this PDU accepts single-phase power input up to 13A/240V with a maximum power capacity of 8kW. The standout feature is the inclusion of an RS485-enabled smart ...

This self-contained system provides power isolation, power distribution, computer-grade grounding and power monitoring. Liebert FPC ranges in capacity from 15kVA to 300kVA, 60Hz or 50Hz models.

Our in-cabinet-mounted Power Distribution Units (PDUs) are manufactured from high-quality components to support all your mission-critical applications. Belden PDUs are designed to facilitate ...
