

How much does bundled indoor optical fiber cable cost

Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. Labor dominates the installed price. Here is the 2026 benchmark for cost of laying fiber optic cable per foot by method: Open trench (lawn/field): \$0. The installation type you choose and the layout of your property determine the total labor and materials needed for your project. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. This guide presents ranges in USD and practical price estimates to help. These cables are available as distribution cables with multiple fibers bundled together for intra-facility applications or as breakout cables where each fiber has an outer jacket for separate device connections. What is the difference between single-mode and multimode fiber?
