How to upgrade the core switch

Overview

1) Bring up the new core switch stack or chassis next to or above the current one. 2) Bring the bulk of basic configurations over and map interfaces properly and triple check 3) Diff the configs (AAA, TACACS, RADIUS, SVIs, etc. So far I have two options. My current core switches (2 x Aruba 3810M) are 6 years old and limited in their connection options. On 9/27/2022 at 3:09 AM, RollinLower said: well this question is quite open as it stands now. For all devices, set the filter to Global. Under Maintain, click Firmware.
